

Welcome to the SNG Barratt Jaguar XJS Parts Catalogue

Following the Worldwide success of our Definitive Jaguar Owners Catalogue which covers over 20 classic models in one 300 page publication we have taken the decision to release a range of more detailed catalogues for each of the more popular models that we cover. This will allow us to better illustrate the parts we have available and to make identification of the item required a little easier.

How to use this catalogue...

Use the illustration in each section to identify the component that you require. Note the indicated item number and find the corresponding number in the section listing. There you will see our part number for that item and to it's right the quantity required per car. Very often this will be the original Jaguar part number, thus allowing you to refer to an original factory parts catalogue if more detail is required.

Each part number is listed in our price list. This listed price is per item and is plus VAT except in the case of books and other VAT exempt items.

If you then quote this part number when contacting our sales department, we will be able to confirm the cost and whether we have the part in stock.

If you cannot conclusively identify the item that you require then please call and we will to assist you. Our staff have many years of experience with all aspects of the Jaguar marque and may have the just the answer...

Your customer number

Upon dealing with SNG Barratt for the first time you will be allocated a customer number. In many cases this will be your UK postcode. If you are overseas your sales advisor will use either your zip code or a number made using your surname. This customer number can either be found on your invoice or simply by asking the person serving you. The ability to provide your customer number when contacting our sales department will allow us to access your information far faster and serve you even more efficiently.

Customer number.....

Your vehicle details

Please complete this section as accurate vehicle information at your finger tips will prove to be invaluable. Very often identifying the correct part for you car can be all down to chassis or engine number. These details can best be found on the car itself, as registration documents can often prove to be incorrect due to engine swaps and vehicle upgrades that the DVLA have not been advised of. Please refer to the Vehicle Identification section on page 2 if you wish to cross reference any information.

Year of manufacture.....

Chassis/VIN number.....

Engine 3.6 / 4.0 / 5.3 / 6.0

Engine number.....

Jaguar engineers and designers have always gone to great lengths to find the perfect of excellence. With the latest great design, the XJS, they've gone even further. It is outstanding in the design to which it surpasses the finest of conventional luxury cars. For the XJS achieves, very gracefully, an almost magical blending of great luxury with extraordinary handling and response. It may well be the best-handling four-passenger car in the world. The XJS has fully independent suspension, four-wheel power disc brakes, rack and pinion steering, and the silver-smooth, aerodynamic, super-efficiently fuel-injected Jaguar V-12 engine. In its first three A/R series, an S-type was the only category 1 runner.

But the S-type is surprisingly fast—two: it is silent in motion and equipped with thoughtful accessories such as electronically regulated heat and air conditioning, stereo AM/FM radio and tape system, automatic transmission and steel-bolted outlet hose. In fact, it is completely equipped in the XJS that there are no factory options at all.

Perhaps Road & Track summed it up best when it said of the S-type: "The emphasis is on refinement, complete system, luxury, comfort and general elegance, and it will run the gamut of a 400B.C. to 400A.D. to 400C.D. to 400E.D. to 400F.D. to 400G.D. to 400H.D. to 400I.D. to 400J.D. to 400K.D. to 400L.D. to 400M.D. to 400N.D. to 400O.D. to 400P.D. to 400Q.D. to 400R.D. to 400S.D. to 400T.D. to Some claim heritage. Others have truly earned it.

Almost every new Jaguar has been a benchmark in design or performance.

The XJS is no exception. It has been designed to be the definitive Jaguar.

Which makes it, in almost every way, the definitive high performance luxury car.

More than five years and £3 million went into the design and production.

With the result that no other car currently made offers a comparable combination of safety, luxury and performance. No car where even the price is £12,450. See SNG Car Test

and front seat belts, but no delivery charge or neither plus.

The list of technical innovations in the XJS is impressive. As is the list of luxury and safety items which are fitted as standard equipment.

And it goes without saying that the performance is startling.

Zero to sixty takes under seven seconds. The top speed, where permitted, is in the region of 150 mph.

For the level of performance, it is a testament to the art of engineering that will maintain

and delight you. As with the mpg figures.

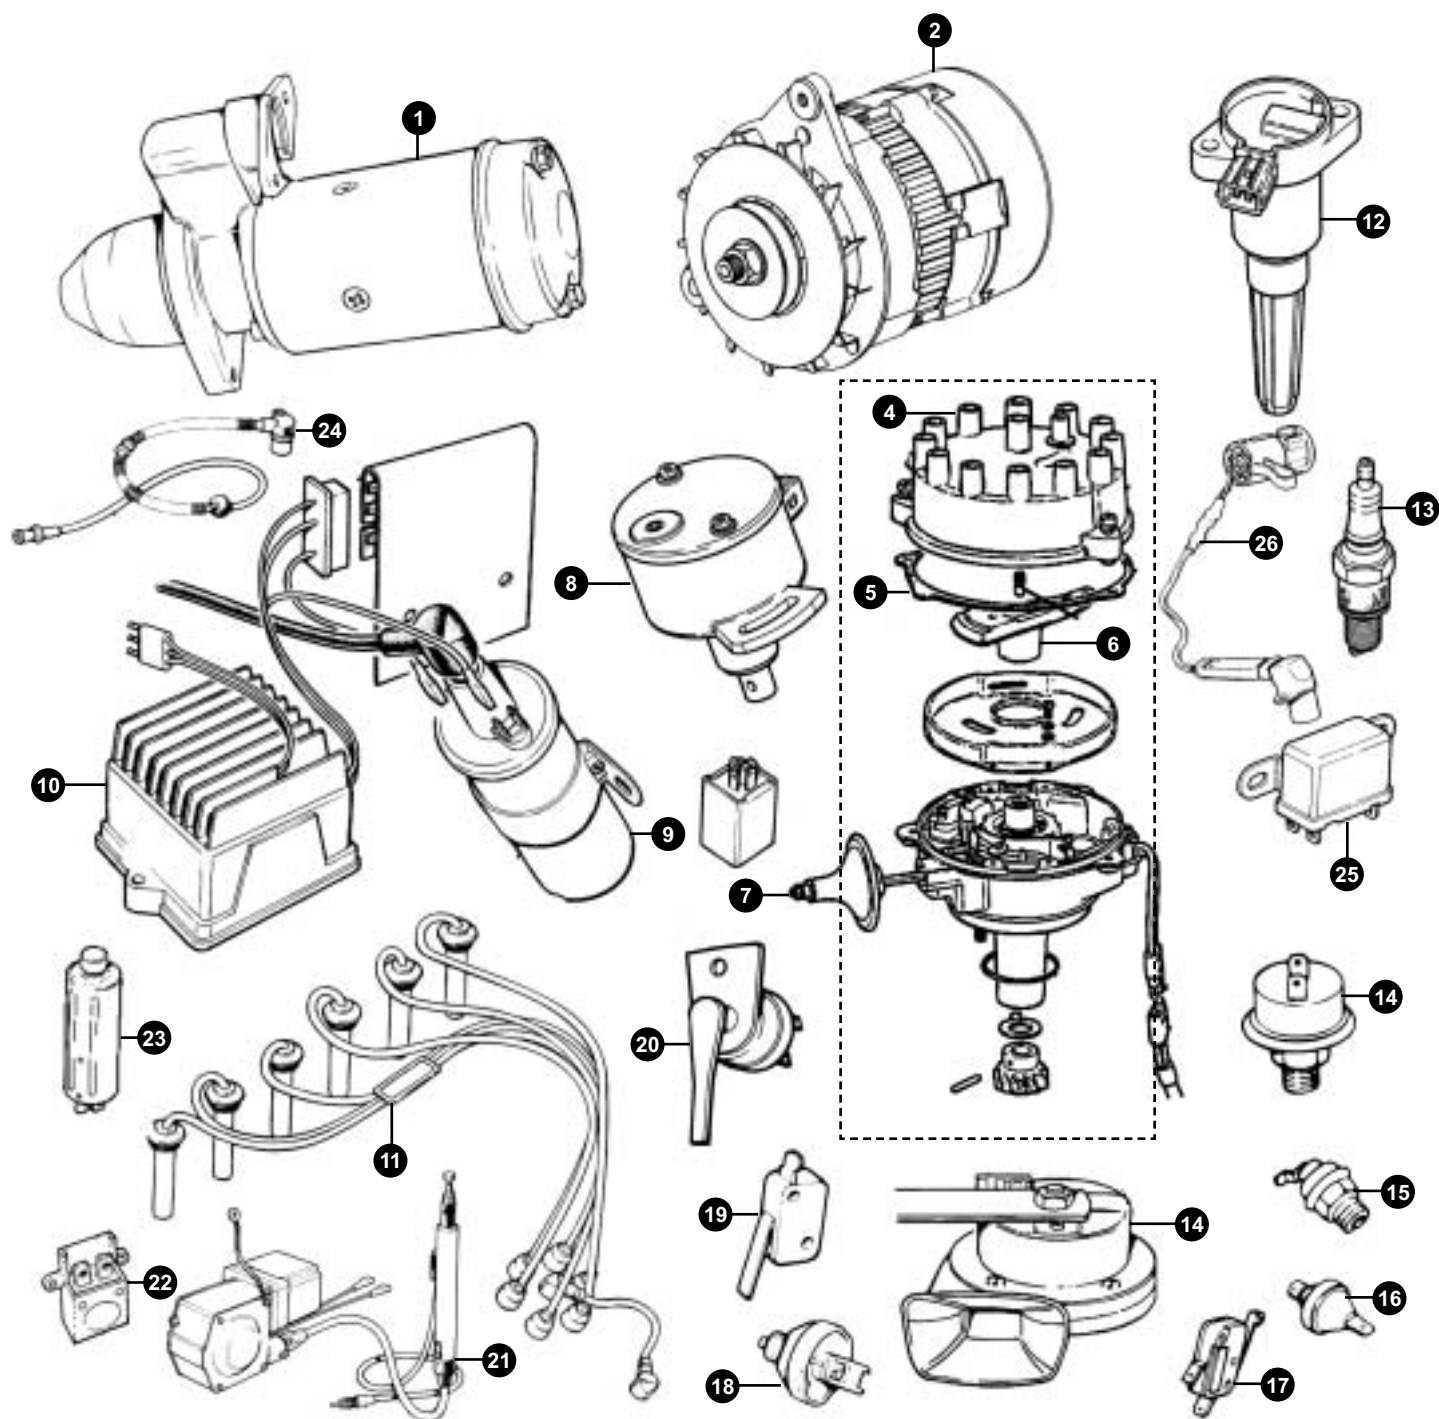

Automatically, because of the expert demands for the XJS, you may have to wait a while before joining the elite few who own one.

But the wait will be well worthwhile. So you can enjoy the best of both worlds.

The Jaguar XJS.

The car everyone dreams of. But very few can ever own.

There are many parts used in any Jaguar heating or air conditioning system. Here are a selection of the most popular ones that we find are regularly purchased by our customers. If the part you require isn't listed for your car, please call.

1. Heater matrix			
to VIN 139051	pipes attached	AEU1195	1
VIN 139052 on*	separate pipes	JLM11342	1
* Inlet pipe			
		JLM1515	1
* Outlet pipe			
		JLM1516	1
* Joining gasket for pipes			
		JLM759	1
2. Heater water valve			
3.6/5.3/6.0*		C41051	1
4.0 to VIN 193093*		C41051	1
4.0 VIN 193094 on		CCC4915	1
* Mounting bracket			
		C42452	1
3. Evaporator			
to VIN 139051		AEU1191	1
VIN 139052 to 190527		JLM1197	1
VIN190528 on		JLM20609	1
4. Compressor			
5.3 to VIN 104080		EAC1986R	1
5.3 VIN 104081 on/ all 3.6		EAC9616	1
4.0 to VIN 190527		CCC4929	1
4.0 VIN 190528 on		MHE7300AA	1
6.0		MHE7300BA	1
5. Expansion valve			
to RHD 2W4032/ LHD 2W54659		RTC693	1
RHD 2W4033/ LHD 2W54660 to VIN139051		CAC2423	1
3.6 to VIN 139051		CAC5934	1
VIN 139052 to 190528		JLM1228	1
6. Air temperature thermostat			
to VIN 139051		AEU1675	1
7. Servo assembly			
to VIN 139051		JLM523E	1
8. Servo vacuum valve			
to VIN 139051		RTC1076	1
9. Resistor			
to VIN 139051		RTC677	1
10. Coolant temperature thermostat			
to VIN 139051		RTC672	1
11. Actuator valve			
to VIN 139051		RTC684	1
12. Vacuum valve			
to VIN 139051		RTC670	1
13. Amplifier			
to VIN 139051		C45402	1

14. Drier bottle (visual identification below)

to VIN 190527	CAC1881	1
VIN 190528 on	MHD7410AB	1

15. Condenser

3.6		CBC2185	1
4.0	to 184573	CBC8541	1
	184573 to 190527	CCC6496	1
	from 190528	MHD7390BA	1
5.3	to 184573	CBC8540	1
	from 184574	CCC5326	1
6.0	to 190527	CCC5326	1
	from 190528	MHD7390AA	1
	upper	KGAIZ7003	1
	Lower	C2C16681	1

16. Thermal cut-out	DAC3374	1
17. Idler pulley adjustment bearing	EAC3042	1
